Allowable Subject Matter

1. Claims 1-4, 6-15, 17-26, 28-33 are allowable over the prior art of records.
2. The following is an Examiner's statement of reasons for the indication of allowable subject matter: Claims 1, 6, 12, 17, 19, 23, 28, 30 are allowable over the prior art of record because the prior arts, cited in its entirety, do not show the master device for polling a plurality of slave devices and maintaining a fast polling and a slow polling list, the master device polling only one slave device at a time from either list and wherein the slave device is associated with the fast polling list if the slave device respond to a poll from the master device within a time period, and wherein the slave device is associated with the slow polling list if the slave device does not respond to a poll from the master device within a time period (claims 1, 12, 23); after the master device has switched from the first of the plurality of serial buses to the second of the plurality of serial buses, if a slave device responds to a poll on the second of the plurality of serial buses and the slave device did not respond to a poll on the first plurality of serial buses as evidenced by the tracked responses, the master device ceases switching to the first of the plurality of serial buses (claims 6, 17, 28); requesting by the control device to become the master device if the command received from the processor fulfillable by accessing a slave device via a serial bus (claims 19, 30).

The remaining claims, not specifically mentioned, are allowed for the same rationale as set for their dependent claims.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferable **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
